

The Robin Roberts Cancer Thrivership Fund

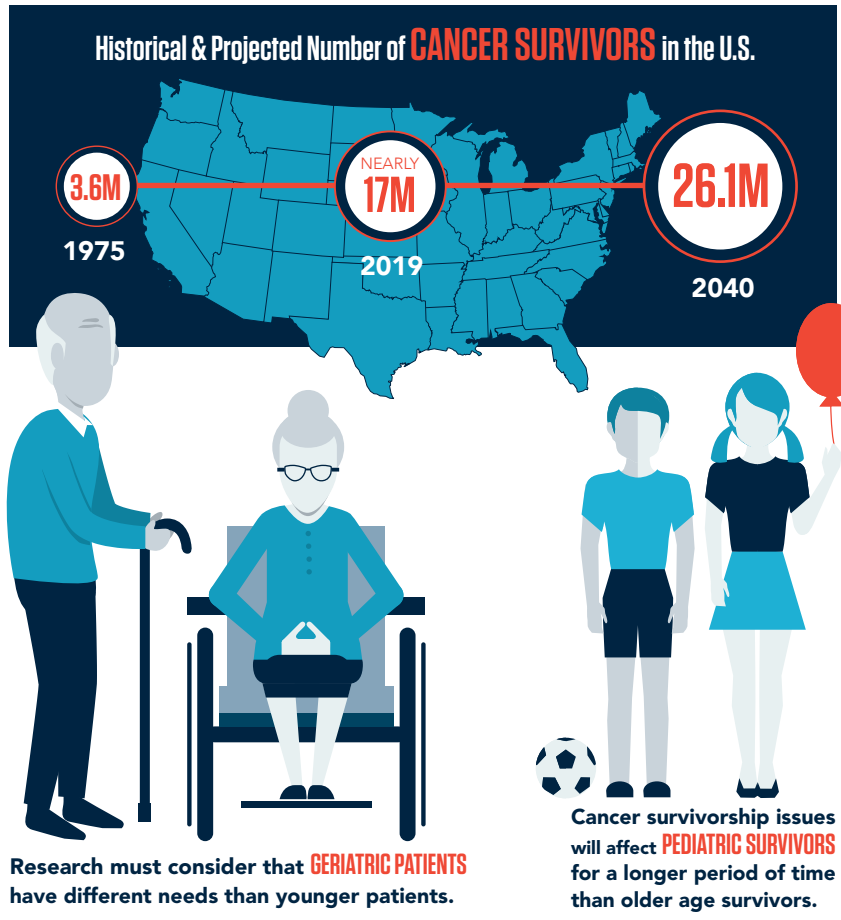

V FOUNDATION®
Victory Over Cancer

In honor of Board member and cancer thriver Robin Roberts, the V Foundation has established a research fund in her name. The unique biomedical needs of cancer survivors will increasingly become a focus of all patient care in the future. New research initiatives are urgently needed to reduce long-term effects of cancer.

The V Foundation's Robin Roberts Cancer Thrivership Fund provides competitive grants for research into the biological basis and prevention of common long-term adverse effects experienced by survivors such as:

- SECOND CANCERS
- ORGAN DYSFUNCTION
- NEUROPATHY
- REDUCED GROWTH & DEVELOPMENT
- DECREASED FERTILITY
- IMPAIRED COGNITIVE FUNCTION
- AUTOIMMUNE or INFLAMMATORY RESPONSES
- PREMATURE DEATH

“It takes courage to believe the best is yet to come.”

~Robin Roberts
