

Cancer is the leading non-accident cause of death in children. Through a partnership with the V Foundation for Cancer Research and WWE, Connor's Cure funds critical research aimed at some of the most challenging pediatric cancers to improve early detection, aggressively explore new treatments and impact survivorship.

The partnership has awarded
GRANTS TOTALING
\$2 MILLION
to nationwide cancer centers.

Los Angeles, CA

Finding new drug therapies to target neuroblastomas.

Pittsburgh, PA

Validating new ways to treat deadly pediatric brain tumors.

Bar Harbor, ME

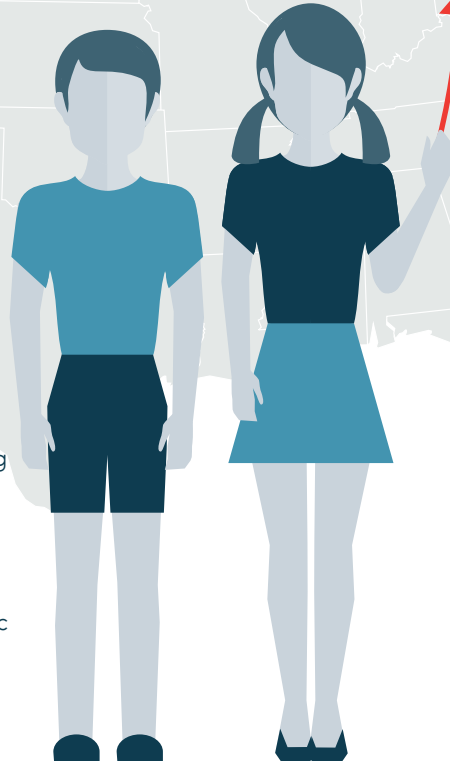

Identifying ways to protect reproductive health in girls undergoing chemotherapy.

Charlottesville, VA

Exploring targeted medicines to reduce toxic side effects and improve long-term health of leukemia patients.

While cure rates for most childhood cancers have dramatically improved,

MORE THAN **15,000**
NEW CANCER CASES
were diagnosed in 2018 in the U.S.
among children birth to 19 years old.

CONTINUED FUNDING
for **PEDIATRIC CANCER RESEARCH**
is imperative to saving more lives.
